Terminal Disclaimer

1. The terminal disclaimer filed on 1/8/04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent 10/002,181 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 9-18 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to suggest the claimed process for surface pretreatment of a clean metal surface, which is aluminum or aluminum alloy, particularly coating the clean metal surface with a composition comprising an organosilane and exposing the coated surface to a laser.

Sauer (U.S. Patent 6,488,805) teaches applying a composition comprising organosilane to a metal surface other than a clean aluminum or aluminum alloy surface and exposing the coated surface to laser (See Abstract), but there is no suggestion of applying it to a clean aluminum or aluminum alloy.

Hatton et al (U.S. Patent 5,451,345) teaches applying an organosilane compound with the same claimed formula to aluminum for cleaning and priming it and subsequently exposing the coated aluminum with actinic irradiation (Column 1, lines 19-55). However, there is no suggestion of providing a cleaned aluminum surface (since the compound is for cleaning) and there is no suggestion of exposing the coated surface to a laser.

Art Unit: 1733

Volkman et al (U.S. Patent 4,861,407) teaches exposing a cleaned aluminum surface to laser to enhance its adhesion, however there is no suggestion of providing a composition comprising an organosilane to the aluminum surface prior to the exposure to the laser (See Abstract).

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **John T. Haran** whose telephone number is **(571) 272-1217**. The examiner can normally be reached on M-Th (8 - 5) and alternate Fridays.
